

ATLANTIC TRANS-FLUID 410, 430 & 450

Product Description

ATLANTIC TRANS-FLUID 410, 430 & 450 transmission fluids are suitable for use in a range of heavy duty transmissions, torque converters and marine gears including those of ZF, Clark, Borg Warner & Road Ranger.

Performance Levels

ATLANTIC TRANS-FLUID 410, 430 & 450 lubricants are recommended for use where the following performance levels are specified:

- Allison C4, C3 or C2
- Caterpillar TO-4 or TO-2
- API GL1, GL2 or GL3
- API CF, CD
- Komatsu Micro Clutch
- JI Case MS 1210
- Massey Ferguson M1110
- ZF TE — ML 03 p2; 04 p2; 06 p2 and 14 p4.

Typical Characteristics

Grade	Viscosity 100 °C	Viscosity @ 40 °C	Pour Point °C	ISO Viscosity	Viscosity Grade SAE
TRANS-FLUID 410	7.3 cSt	49 cSt	-27	46	10W/20 80W
TRANS-FLUID 430	11.5 cSt	105 cSt	-24	100	SAE 30 85W
TRANS-FLUID 450	19.0 cSt	215 cSt	-20	220	SAE 50 85W/90
